General Haig's Tommies Advance On Thiepval Front and Regain Regina Trench While French and Teutons Batter Each Other

(Associated Press by Federal Wiresess.) ONDON, November 12-A series of flerce battles was fought yesterday on five of the main fronts, with the armies of each of the belligerents engaged with the exception of that of Belgium. While reports from some of the fronts are highly contradictory, a signal victory appears to have been won by the Russo Rumanian army against the German-Bulgar-Turco forc s in the Dobrudja section, while on the western front the British have wrested another long section of trenches from the Germans on the Thiepval

The defeat of von Mackensen on the Dobrudja front by General Avoresco appears to have been decisive, the whole Bulgar German advance being thrown back upon the railroad along the Constanza line, with the Russo-Rumanians across the railroad in some places. Great fires have been observed in the direction of Tchernavoda and Constanza, and it is thought possible that the enemy has fired a number of towns in this section, preparatory to evacuating these places. All Claim Victories

On the Transylvanian front, both north and south in the passes, there were desperate struggles, with Berlin on the one hand and Bucharest and Petrograd on the other differing radically as to the outcome. Washington Hears That Crew Has Been Landed In Spain-No Details of Submarine's Actions Yet

LANSING WIRES FOR FACTS

(Associated Press by Federal Wireless.)

WASHINGTON, November 12-Unofficial word that the American steamer Columbian of the American-Hawaiian line has been sunk in the Mediterranean by a German submarine has been eceived at the state department and again the administration is facng what appears to be a renewal of the submarine question in an ggravated form.

Advices received through Lloyds at London state that the Amercan steamer was sunk by submarine gunfire and that the members f the crew have been landed at Corunna, Spain.

Whether any of the crew was killed or not has not been reported. NO OFFICIAL INFORMATION RECEIVED

Secretary Lansing has cabled to the American ambassador at Madrid to secure the fullest possible information at once and keep the department fully advised. The secretary expects to have suficient data to present the case to the President when he reaches here tomorrow.

It is not known whether the Columbian was given warning that she was to be attacked or not, whether or not she was carrying contraband that legalized her destruction or whether or not she attempted to escape after being notified to surrender by the German subnarine commander.

WAS BOUND FROM ST. NAZAIRE, FRANCE, FOR GENOA, ITALY. WHEN ATTACKED BY SUBMARINE AND SENT TO BOTTOM

No advices have been sent by the central office of the American Hawn ian Steamship Company to its local agent, C. P. Morse, regarding the shelling and sinking of the steamer Columbian by a submarine in the Mediterranean. up to last night. The news of the attack was enried in Associated Press lespatches four days ago but nothing further was heard until last night.

The local office states that the big vessel, registered at 11,000 tons, had left Saint Mazaire, France, where it had discharged mounts for the Fresch army, and was on its way to Genon with a big cargo.

The assault by the submarine apparently occurred after passing Gibraltar.
